Regal Beloit Makes Fortune's List of 40 Best Stocks to Retire On For Second Year in a Row

June 29, 2009 (Beloit, WI): *Fortune* Magazine recently issued its list of the top 40 best stocks to retire on. Regal Beloit is listed for the second year in a row for being a stock that has consistent profit growth and steady dividends, a distinction that Regal Beloit shares with only one other company of the 40 listed. In its analysis of Regal Beloit, *Fortune* notes its expectation that Regal Beloit should benefit from cost cutting measures and recent energy efficiency legislation, which should "spur demand for efficient HVAC systems."

Fortune's list of 40 Best Stocks to Retire On was created in 2002 with "the goal of gathering a solid, diversified group of stocks that would thrive in good or bad times." According to *Fortune*, the stocks included in its 40 Best Stocks to Retire On have generated an average annual return of 10%, besting the S&P's 5.1% since the establishment of the list in 2002.

Regal Beloit Corporation is a leading manufacturer and marketer of branded electrical and mechanical motion control and power generation products serving markets throughout the world. Regal Beloit is headquartered in Beloit, Wisconsin, and has manufacturing, sales, and service facilities throughout the United States and in Canada, Mexico, Europe and Asia.
